

MAG BASE PAD by Stay-tech

Installation instructions

PACKAGE CONTAINS

1. Magazine base pad 1 pcs

TOOL NEEDED

Basic tools:

-No tools required.

Recommended tools:

-No tools required.

STEP 01

Original Magazine base pad removal

Pull magazine base pad locking plate with thumb in direction of magazine.

When the magazine base pad locking plate is lifted all the way up, pull the magazine base pad off from the magazine.

Make sure that the firearm is empty during installation and functionality check procedure. Separate magazines and ammo from firearms and place them away from the installation area. For any injuries during installation Stay-tech company will not hold responsibility.

STEP 02

Stay-tech Magazine base pad installation

After the magazine base pad is removed keep pressure on the locking plate. Be careful, magazine spring is loaded.

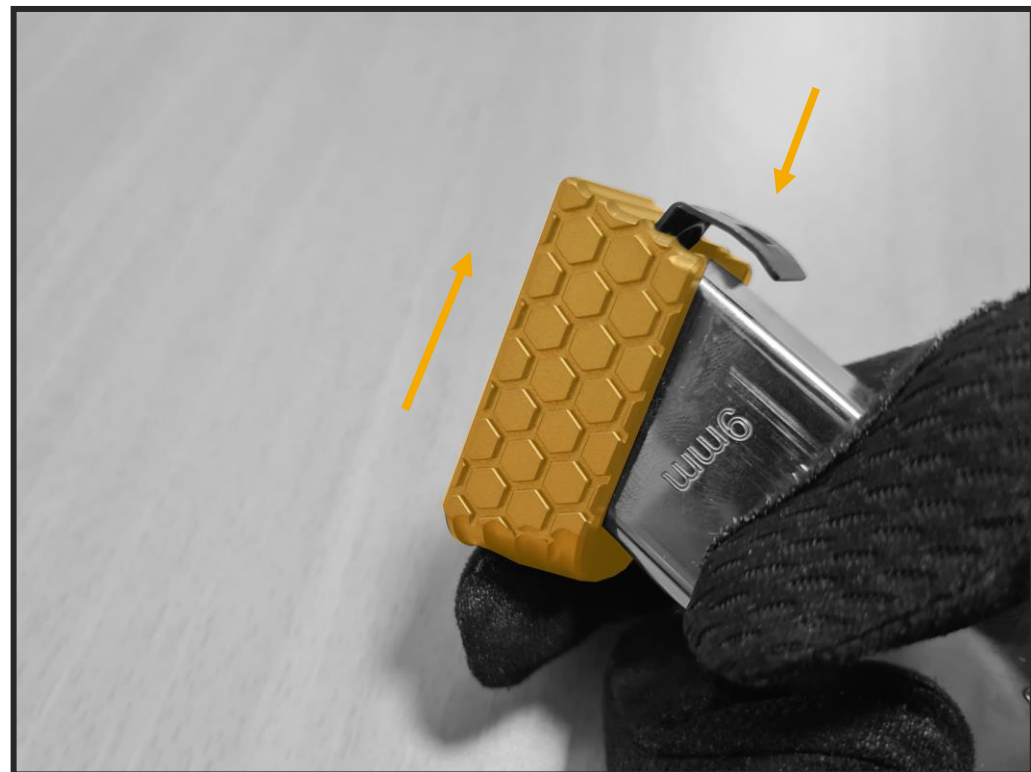

Keep pressure on the locking plate and slide new magazine base pad on magazine.

Make sure that you keep pressure on the magazine base pad locking plate all the time during installation. Uncontrolled unloading of springs can cause serious damage. For any injuries during installation Stay-tech company will not hold responsibility.

STEP 03

Stay-tech Magazine base pad installation

Slide magazine base pad all the way up and push locking plate on place.

Ensure that the magazine base pad is in place and locked with the magazine base pad locking plate.

STEP 04

Inspection of installed parts

After installation of the Stay-tech Magazine base pad, check alignments and orientations. There should be no collision with other parts of the firearm after the magazine is in the firearm.

After correct installation has been ensured, check the functionality of the firearm according to the pistol manufacturer. Now you are ready for a new shooting experience with Stay-tech parts.

WARNING

Make sure that the firearm is empty during installation and functionality check procedure. Separate magazines and ammo from firearms and place them away from the installation area.

For any injuries during installation or any injuries during improper usage of firearms and Stay-tech parts, the Stay-tech company will not hold responsibility.

After installation of Mag base pad by Stay-tech check:

- the functionality of a firearm,
- if all safeties are still working,
- if usage of firearm is still safe with respect to all safety precautions.

The company Stay-tech as a manufacturer of parts and supplier cannot be held responsible for damage on products, all involved parts, and damage on firearms that are incorrectly installed, inappropriately used, or installed not according to instructions.
